Potential developers, buyers and investors

The Article 6.4 Supervisory Body has adopted its first methodology and approved the first issuances under the Paris Agreement Crediting Mechanism, and the first large sovereign ITMO transactions are expected to close at COP31.

THE GAP

Nobody speaks for Article 6 alone

Built for another market

The established bodies grew up around the voluntary carbon market. IETA covers all emissions trading; ICVCM and VCMI set voluntary-market integrity and claims rules.

Built for states

The Article 6 Ambition Alliance, Japan's A6IP Center and the regional carbon market alliances serve governments, not market participants.

ONE GLOBAL MARKET

Paris Agreement Carbon Market

Article 6 Network fills the gap

One dedicated network for banks, companies, developers and governments. Mission: make Article 6 the default carbon market for governments, investors and companies.

MISSION

Build a liquid, high-integrity Paris Agreement carbon market

Educate

Article 6 literacy for banks, investors, companies, governments and developers, through the Article 6 Academy.

Advocate

Evidence-based recommendations on national authorisation frameworks, EU policy and the UNFCCC and ICAO processes.

Publish

Article 6 Radar, Article 6 Views, the Global Survey and The State of the Article 6 Carbon Market, launched at each COP.

Connect

The Article 6 Summit in Bonn each June, the annual Members meeting in Geneva and COP side events.

One goal

Channel private capital into national climate goals, through a market that governments, buyers and investors can trust.

The State of the Article 6 Carbon Market 2027

Second edition, built on the Global Survey

Every year the Network brings the market together twice: in June in Bonn, where governments meet at the UNFCCC sessions, and in November at the COP. The Global Survey launched in Bonn feeds the report launched at the COP.

ARTICLE 6 ACADEMY

The people who must use the market need to understand it

Foundations

Article 6.2, Article 6.4 (PACM), ITMOs, authorisation, corresponding adjustments and claims.

For governments

Capacity building and readiness for host countries and DNAs: authorisation, registries, reporting.

For markets

Developing Article 6.4 projects, financing Article 6, compliance and corporate claims.

Online

Self-paced courses, primers and monthly webinars, launching Q2 2027.

At the Summit

Academy workshops in Bonn each June: case studies, capacity building, A6.4 projects, finance.

At the COP

Briefings and roundtables at each COP, starting with COP31 in Türkiye.

Host governments have full Academy access free of charge.

GOVERNANCE AND INDEPENDENCE

A Swiss association with built-in independence

Formed in Geneva

Article 6 Network Association is a Swiss association under Articles 60 to 79 of the Civil Code, seated at Impact Hub, Rue Fendt 1, 1201 Geneva.

General Assembly of voting members; Executive Board of seven to nine, with an independent majority; a Geneva secretariat; regional chapters; working groups on Policy, Integrity and Claims, Finance, and Capacity Building.

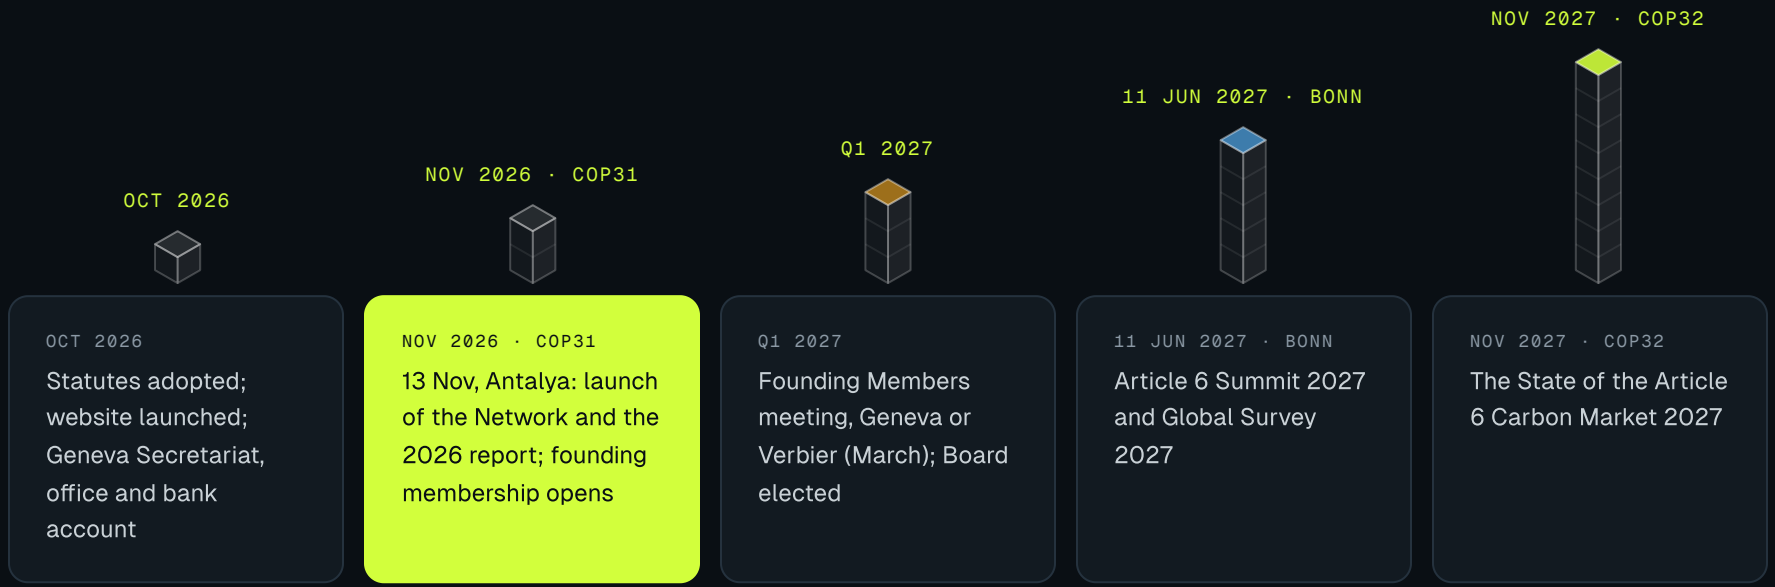

Independence safeguards

- A majority of Board seats with no commercial stake in ITMO trading or ratings
- A public register of interests, including the founder's roles
- Recusal from decisions touching a member's own business
- No endorsement of specific credits, projects, ratings or transactions

Eight regional chapters around the Geneva hub: North America, United Kingdom, Brussels (EU), Latin America, Africa, Asia, Middle East, Australia & Pacific. Their co-founders form the Founding Council, which advises the Board.
