ARTICLE 6 NETWORK

A small team with a global reach

Article 6 Network Association is a Swiss association seated in Geneva. Its mission is to build a liquid, high-integrity Paris Agreement carbon market that channels private capital into national climate goals. It works through four lines of work: **Educate** (the Article 6 Academy), **Advocate** (policy), **Publish** (Article 6 News, the Article 6 Radar and The State of the Article 6 Carbon Market) and **Connect** (the Article 6 Summit in Bonn and COP events).

In 2027 the Network launches the Global Survey, holds the first Article 6 Summit in Bonn in June and publishes the second edition of its annual report at COP32 in Ethiopia. These roles make that programme happen.

HOW WE WORK

- **Flexible location.** The Secretariat is at Impact Hub, Rue Fendt 1, 1201 Geneva. Team members can work from anywhere and meet in Geneva, in Bonn in June and at each COP.
- **Independence.** Every team member declares their interests in the Network's public register and recuses themselves from decisions touching their own business. The Network does not endorse specific credits, projects, ratings or transactions.
- **One team, three flagships.** All roles contribute to the annual report, the Article 6 Summit and the Global Survey.
- **Languages.** The working language is English; French, Spanish, Arabic, Chinese or Ukrainian are an asset.
