01 · THE REPORT

The reference on the Paris Agreement carbon market, every year at the COP

The State of the Article 6 Carbon Market is the Article 6 Network's seminal annual report. The first edition is launched at COP31 in Türkiye in November 2026. The second edition will be launched at COP32 in Ethiopia in 2027.

The 2027 edition adds what no other report has: the results of the Article 6 Network Global Survey 2027, the first survey of both sides of the market, presented first at the Article 6 Summit in Bonn in June 2027.
